Business Administration student with experience in administrative support, data management, report generation, and stakeholder coordination. Organized, analytical, and committed to accuracy, confidentiality, and delivering results in fast-paced environments.

EDUCATION

University of Michigan - Stephen M. Ross School of Business | May 2029

Bachelors of Business Administration | GPA: 3.71

PROFESSIONAL EXPERIENCE

Visit Detroit | Detroit, MI

May 2026 – Present

Destination Partnership Services Intern

- Maintained and updated the IDSS database by entering, verifying, and correcting partner records, ensuring data accuracy while generating reports and queries, and supporting daily administrative operations.
- Managed partner data and onboarding by maintaining CRM records for 250+ partners, improving database accuracy, onboarding 20+ new partners, managing distribution lists, monitoring engagement, and supporting stakeholder outreach.
- Conducted partner research, provided administrative support to the Destination Partnerships team, and coordinated outreach materials while managing multiple projects in a fast-paced hospitality and tourism environment.

General Motors Co | Detroit, MI

June 2024 – August 2024

Student Intern | Community Service

- Collaborated with a team of peers and GM mentors to design and implement impactful community service projects aimed at improving local neighborhoods.
- Projects: Distributed 60,000+ pounds of fresh food to families, neighborhood cleanups and park restorations, public safety improvements, installation of trash cans in girls' school bathrooms to support hygienic disposal of menstrual products, IT equipment organization, CPR/AED training, workshops, and team-based problem-solving challenges.

Math Corps, Wayne State University | Detroit, MI

June 2022 – August 2022

Mathematics Assistant Teacher

- Supported students in understanding mathematical concepts by guiding step-by-step problem solving and logical reasoning.
- Facilitated small-group problem-solving sessions, encouraging collaborative analysis and clear explanation of solutions.
- Monitored student progress, identified gaps in understanding, and provided targeted feedback to improve quantitative comprehension.
